- Select the Animal Type- such as Poultry that you are creating and hit **Save**.

- Enter the animal information and hit **Save**. Add all animals before entering the classes. To do so, simply click **Add Animal** again.

- Once animals have been added, you will select if you are entering a single animal, select which animal, and select the class entering.

FYI- you must enter pens separately from individual animals even if they use the same animal.

- Clover Kids Static Exhibits: Select **Clover Kids Program** as the class. You can select the quantity of items being entered (from 1-3) before you move on.

Click **Continue**.

FYI: It will not allow you to enter descriptions until the entry has been made, then it will say

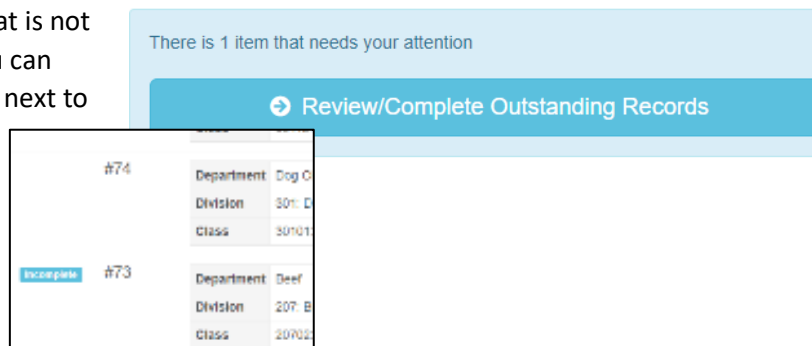

it is incomplete, you will then have to edit that entry and add a description of the exhibit, i.e. "wood barn". (See #12 for details on incomplete entries.)

11. A pop up will ask you to Review your Selections. If all is correct, click [Create Entries](#).

12. Once you have created an entry, it will take you back to the list of Exhibitors. You can then enter another exhibit/animal for that exhibitor, or change to a different one. Wait until you have made ALL ENTRIES FOR EVERYONE IN YOUR FAMILY before moving on to the next step. If you see this blue box at the top of your page, there is an entry that is not complete. You must fix it first before you can move on. You should see an [incomplete](#) next to the entry that needs to be fixed.

13. Once you see [Everything looks good!](#) [Continue to Payment](#) at the top, all entries should be complete.

Again – DO NOT [Continue to Payment](#)

unless you are done entering livestock/exhibits for now. It will lock you out of the system until an administrator has approved your entries. If you are done, click [Continue to Payment](#).
